Award History

This section displays the awards:

Transaction History - Displays modification records for an award. Each modification appears as a row in the table below.

Sub-Awards - Displays any sub-contracts reported by this contract's recipient (the 'prime recipient' in the sub-award context). Sub-contracts are contractual agreements that a prime recipient makes with another entity (sub-recipient) to furnish supplies or services for the prime contract. Above the Sub-Award table, we display the total number of reported sub-contract actions and their total value.

Federal Account Funding - Each row in this table shows a transaction in the awarding agency's financial system that promises spending for the award from a federal account (a rollup of TAS, or Treasury accounts), broken down by program activity and object class.
