FOR THE DISTRICT OF SOUTH CAROLINA  
CHARLESTON DIVISION**

DEBRA NELSON,

Plaintiff,

v.

CURTISS WRIGHT ELECTRO MECHANICAL  
CORP. D/B/A CURTISS-WRIGHT STEAM AND  
AIR SOLUTIONS, STEPHANIE LANIER, AND  
SHANE SABLITSKY,

Defendants.

C.A. No. 2:25-cv-00405-RMG-MGB

**DEFENDANTS' RESPONSE TO PLAINTIFF'S MOTION FOR PROTECTIVE ORDER  
REGARDING NON-RESPONSIVE SOCIAL MEDIA PRODUCTION**

Defendants Curtiss Wright Electro-Mechanical Corporation, Stephanie Lanier, and Shanie Sablitsky (collectively "Defendants"), by and through their undersigned counsel, respectfully submit this response to Plaintiff's Motion for Protective Order Regarding Non-Responsive Social Media Production ("Plaintiff's Motion"). Plaintiff's Motion appears to result from her confusion regarding Plaintiff's voluminous and, often, unstructured discovery requests. The discovery at issue was produced in response to a specific request from Plaintiff records related to her social media. There is no basis to "strike" a discovery production; the discovery is relevant; and the social media at issue is publicly available. As such, Plaintiff's Motion should be denied.

**I. DEFENDANTS' PRODUCTION IS NOT NON-RESPONSIVE.**

Plaintiff's Motion is premised on the assumption that Defendants' production of Plaintiff's social media profile was in response to her October 31, 2025, Supplemental Requests for

Production.<sup>1</sup> However, Defendants' production was not in response to Plaintiff's October 31<sup>st</sup> Request and could not have been in response to those requests because Defendants' production was served on October 30, the day before Plaintiff served her supplemental requests.

Plaintiff has inconsistently numbered her discovery requests and often sends requests for production with no numbering at all. As noted in a footnote at the bottom of each of Defendants' responses, Defendants have assigned a number to each request so that each request can be identified. Defendants' production of Plaintiff's public social media was in response to a request that Plaintiff served on September 30 in her Amended Deposition Notice. Defendants construed this a Fourth Request for Production. See Ex A, *Amended Deposition Notice*. "RFP 23", included in this notice, requested:

"All documents reflecting monitoring, viewing, tracking, reporting, or collection of Plaintiff's LinkedIn or other social media activity by CW employees or agents, including screenshots, page analytics, instructions to monitor, and resulting summaries."

Per Plaintiff's request, Defendants produced screenshots of Plaintiff's public social media that it had collected. Copies of Defendants' written responses to what Defendants labeled as Plaintiff's Fourth Requests for Production are attached as Exhibit B. These screenshots of Plaintiff's publicly available Instagram account are clearly responsive to RFP No. 23 and were not produced in response to the discovery requests referenced in Plaintiff's Motion.

## **II. PLAINTIFF'S CONCERNS ARE MISPLACED.**

As an initial matter, Plaintiff has no basis to "strike" the production, because it is merely a discovery production. It has never been filed with the Court and may never be. These records were

---

<sup>1</sup> Plaintiff now refers to this as her Fourth Requests for Production. She has never referred to her October 31, 2025, requests as her Fourth Request for Production prior to this filing.

produced to Plaintiff to preserve Defendants' right to use relevant documents for summary judgement and at trial.<sup>2</sup>

As has been heavily briefed, Plaintiff's social media posts are relevant in this case. Plaintiff has used her social media to publish posts about her employment, including a 40-minute video about Defendants. Defendants have a right to use that information as the case moves forward, whether at summary judgement or at trial.

All the social media for which Plaintiff seeks a protective order is publicly available. There is no reason to deprive Defendants of this discovery when Plaintiff puts this information in both the public domain and at issue in this case through her discovery requests.

Finally, a protective order would be premature. Defendants have not indicated that they intend to use any images depicting Plaintiff's minor grandchildren and, in fact, Defendants have no intention of doing so.

### **III. CONCLUSION**

For the reasons stated above, Plaintiff's Motion for Protective Order should be denied.

Respectfully submitted this 16th day of January, 2026.

**DEFENDANT'S RESPONSES TO  
PLAINTIFF'S FOURTH REQUESTS FOR PRODUCTION OF DOCUMENTS**

**TO: DEBRA NELSON, Plaintiff, *Pro Se***

Pursuant to Federal Rules of Civil Procedure 26 and 34, Defendant Curtiss Wright Electro Mechanical Corporation ("Curtiss Wright" or "Defendant"), by and through its undersigned counsel, serves these responses to the Fourth Requests for Production of Documents to Defendant Curtiss Wright Electro Mechanical Corp. These responses reflect Defendant's present knowledge and the results of its investigation to date. Defendant reserves the right to amend or supplement these responses as may be necessary or appropriate in the future.

**REQUESTS FOR PRODUCTION<sup>1</sup>**

RFP 18: All policies, procedures, handbooks, codes of conduct, investigation protocols, social-media/monitoring policies, and document retention policies applicable to Debra Nelson in 2023.

**RESPONSE: See DEFS 0398-DEFS 0437**

---

<sup>1</sup> Defendant has numbered its responses picking up from its responses to Plaintiff's Third Requests for Production to avoid confusion with previous requests.

RFP 19: All documents relating to Plaintiff's performance, discipline, counseling, Final Warning, suspension (11/14/2023), and termination (11/21/2023), including drafts, redlines, metadata, and the identity of drafter/approvers.

**RESPONSE: Defendant has previously produced documents responsive to this request in response to other requests. See generally DEFS0087-DEFS0132; see documents previously produced as DEFS0082-DEFS0086; DEFS0280-DEFS0290; DEFS0393-DEFS0397; and documents produced here as DEFS0438-DEFS0449**

RFP 20: All communications (emails, messages, chats, Teams/Slack, texts) between or among CW employees/agents referencing Plaintiff, including, but not limited to, Stephanie Lanier and Shane Sablotsky.

**RESPONSE: Defendant objects to this request because it is not reasonably calculated to lead to the discovery of admissible evidence nor is the extensive burden to collect such information proportional to the needs of the case. Subject to and without waiving these objections, Defendant has produced emails between Stephanie Lanier and Shane Sablotsky referencing Plaintiff in 2023. See DEFS 0450-DEFS 0787.**

RFP 21: All documents concerning timekeeping, attendance, time/edits overrides, audit logs, and investigation into timekeeping issues.

**RESPONSE: All responsive documents have previously been produced in response to RFP 11. See DEFS 0265-DEFS0279.**

RFP 22: All documents concerning Plaintiff's safety complaints, equipment issues (including the eddy-current cable), tool reports, any response, or follow-up by supervision or EHS.

**RESPONSE: Defendant is not aware of any safety complaints initiated by Plaintiff. Safety complaints do not contain employee names to encourage reporting and protect a complainant's anonymity. Further, Steam and Air Solutions do not perform eddy-current testing. As such, Defendant is not in possession of any responsive documents.**

RFP 23: All documents reflecting monitoring, viewing, tracking, reporting, or collection of Plaintiff's LinkedIn or other social media activity by CW employees or agents, including screenshots, page analytics, instructions to monitor, and any resulting summaries.

**RESPONSE: Defendants object to this request because it seeks documents not related to the claims and defenses in this action and is not reasonably calculated to lead to the discovery of admissible evidence. Plaintiff's social media profiles are publicly available and are viewable by anyone. Curtiss Wright cannot control who views such information. Subject to and without waiving these objections, please see the enclosed screen captures of Plaintiff's publicly available social media profiles produced at DEFS0788-DEFS1405.**

RFP 24: All documents and communications with outside vendors/consultants relating to social-media monitoring, investigations, or intelligence regarding Plaintiff, including statements of work, invoices, and deliverables.

**RESPONSE: Curtiss Wright is not in possession of any responsive documents.**

RFP 25: Litigation hold notices, preservation directives, and retention schedules issued regarding Plaintiff; documents sufficient to show the custodians, data sources, and date ranges covered.

**RESPONSE: Defendant objects to this request because it seeks information protected by the attorney client privilege and/or work product doctrine.**

RFP 26: All documents provided to, or received from, Amentum concerning Plaintiff, including HR records, complaints, incident reports, and communications.

**RESPONSE: As of the date of this response, Defendant has not communicated with Amentum concerning Plaintiff and thus there are no documents responsive to this request.**

RFP 27: All documents and communications with Hunt Law or any attorney concerning Plaintiff's employment issues prior to termination, including drafts, notes, and summaries (to the extent not privileged; a privilege log should be provided).

**RESPONSE: To the extent that Plaintiff seeks communications between the Defendants and their attorneys concerning Plaintiff's employment issues, Defendant objects to the request on the ground that it seeks information protected by the attorney-client privilege and/or work product doctrine. To the extent that Plaintiff seeks communications between Defense Counsel and Hunt Law, all communications regarding this matter have been produced as DEFS 0136-DEFS 0264.**

RFP 28: All documents sufficient to identify individuals with knowledge of Plaintiff's allegations and defenses, including organizational charts for relevant periods.

**RESPONSE: Defendant objects to this request to the extent it seeks information that is not proportional to the needs of the case as she seeks "all documents" that identify individuals with knowledge of Plaintiff's allegations and defenses. Subject to and without waiving this objection many of the documents previously produced in this case identify such individuals, including documents produced to the South Carolina Human Affairs Commission, previously produced as DEFS 0291- DEFS 0380. An organizational chart for the relevant period is produced here at DEFS 1411-DEFS 1412.**

RFP 29: ESI protocol details: data maps, custodians, repositories, keyword terms, and collection/processing/search/production parameters used for Plaintiff's data.

**RESPONSE: Defendant objects to this request on the grounds that it would require the creation and production of documents not in existence at the time of the request.**

**Defendant further objects on the grounds that such documents, if created, would be protected by the attorney-client privilege and/or the work-product doctrine.**

RFP 30: All documents reflecting complaints about harassment, retaliation, or discrimination within the relevant department(s) during the timeframe

**RESPONSE: Other than complaints from Plaintiff, there were no formal complaints of harassment, retaliation, or discrimination in Plaintiff's department in 2023. Documents related to Plaintiff's complaints have been produced.**

RFP 31: Any internal or external reports, audits, or reviews concern Plaintiff's claims or related workplace conduct, including draft and final versions

**RESPONSE: Defendant objects to this request as it is vague and ambiguous and it is unclear what Plaintiff is seeking. To the extent the Plaintiff's request seeks legal reports, audits, or reviews of her claims, Defendants object to the request on the grounds that such information would be protected by the attorney-client privilege.**

Respectfully submitted this 30th day of October, 2025.
