

Debra Nelson

December 14, 2023

On September 25, 2023 I was given a verbal counseling from Stephanie Lanier, HR Rep for my tone in an email that I sent her. Stephanie stated that this has happened before so I asked her what she was talking about. Stephanie tried to include an email that occurred in June that I didn't know was an issue. When I continued to ask questions Stephanie said let's just forget that email and focus on the email that I sent her on September 15, 2023. In this meeting was me, Antonio Coleman and Stephanie Lanier and Stephanie was dismissive and rude. She said the verbal counseling was for not supporting a positive work environment. After the meeting I filed a complaint with Curtiss Wright Ethics against Stephanie Lanier for not supporting a positive work environment because of the of that meeting.

On September 29, 2023 I signed my time for the week of September 25-29, 2023. On Monday October 2, 2023 I was notified that I needed to sign my time. Someone unsigned my time and added more hours to it. I verified hours worked with James Lawrence, Security. My hours for Monday September 25th & 29th were adjusted without my consent. I had to have Shane Sablotsky, Sr Quality Manager go in and make the corrections because the system would not allow me to do it. I asked for an investigation into who unsigned my time and added more hours to it. I was never given an answer as to who unsigned my time despite me asking several times. I believe I was retaliated against because of previous complaints filed and attempting to be set up for stealing time.

On November 14, 2023 I returned to work after being out for over a week. I requested a meeting with the Plant Manager, Shane Sablotsky, Antonio Coleman and Stephanie Lanier to discuss issues with my time and questions regarding my lack of Ultrasonic certification. In this meeting I was given a write up which was a final warning. The write up was for me (a grown adult) using profanity with the short-term disability HR Partner, Barry Morrow. I was told that there was a 7-day elimination period, and I would only be paid for 1 day. A few hours later I received a call from Jaime Kambrata wanting to take a statement. I said, "you never respond this quick when I file a complaint, let me guess he's white". I told her that I was not giving a statement for them to set me up and to not be harassing me while I'm sick. Another coworker was out for 5 days and was paid for 5 days. Again, I was being retaliated against by Curtiss Wright. I asked Stephanie Lanier to send me information on short term disability and I have not received it.

I also asked why I was not certified in UT and why Joe Cabaup, NDT Level 3 was not in the meeting. I requested that Joe Cabaup be at the meeting, and he was not. I sent Joe Cabaup an email on October 20, 2023 about my lack of UT certification and I received no response. Shane Sablotsky stated that Joe Cabaup was not my supervisor which had nothing to do with what I asked. Joe Cabaup is the only person that gives the tests to NDT Technicians to certify them for the test methods performed to do our job. I believe that I was not certified and Patrick Ingram, NDT Technician was certified because of favoritism and discrimination. Shane Sablotsky deflects, lies and covers up the constant discrimination, bullying and retaliation that I have encountered since I started working at Curtiss Wright.

On November 14, 2023 I was given a write-up that was falsified with a date that never occurred. I went to confront Stephanie Lanier (HR Representative) and while approaching her office I saw April James (Hr Rep) in the hallway. I asked April to join me in Stephanie's office. I began to verbally confront Stephanie while I was sitting down in a chair that was on the other side of her desk. I stated that she lied about the dates on the write-up. The first write-up for a discussion was dated 7/14/2023 and that never occurred. I was suspended on November 14, 2023 and escorted out of the building by Shane Sablotsky (Sr Quality Manager) and James Lawrence (Facility Manager). I was told I was suspended without pay pending an investigation. I also sent an email to Stephanie Lanier on November 14, 2023 asking for information about short-term disability and she never responded.

On November 15, 2023 Management, Shane Sablotsky, and another manager not sure of his name but he has an English accent. Management called all the employees to this meeting. In the meeting it was said that there was a combative individual and to not let this individual in the building. This individual they were referring to was me. There have been several employees fired and there have not been any meetings held with all the employees warning them not to let them in the building. Michelle Bolton-Broman (white female) was reported to HR for bullying Megan Agler on multiple occasions with witnesses. Michelle was not escorted out of the building, not suspended, no investigation done, not terminated and no meeting was held with all the employees. The engineer, Brian Fogarty (white male) who bullied me was not escorted out of the building or suspended immediately after the incident

On November 21, 2023 I texted my Supervisor, Antonio Coleman to ask him the status of the investigation. Antonio responded and said that he would follow-up with HR and get back to me. Antonio never got back to me. I received my final paycheck on December 1, 2023 and I didn't receive my short-term disability payment. I texted Antonio again on December 1, 2023 and asked how long the suspension and the status of the investigation was. Antonio replied that I needed to contact HR for those questions. I told him that I was not comfortable contacting HR, Stephanie Lanier and as my supervisor I thought he could get that information. Antonio replied

that he would contact HR and get a response for me. Antonio never sent a response. I sent an email to the other HR Rep, April James and asked about how long my suspension was and the status of the investigation. I also asked about how I could access my pay information to view my paystub information. I never got a response. I received a notification from the Post Office for a pick-up of certified mail from Curtiss Wright. I signed for certified mail on December 2, 2023 and it was a letter from Curtiss Wright that was sent on December 1, 2023 notifying me that I was terminated on November 21, 2023. Curtiss Wright waited until I contacted them again on December 1<sup>st</sup> to let me know that I was terminated. Curtiss Wright waited a week and a half to notify me of my termination. Curtiss Wright sent me the same termination letter by UPS on December 7, 2023.
