Curtiss-Wright Corporation
Attn: Chairman/CEO Lynn M. Bamford
130 Harbour Place Drive Ste 300
Davidson, NC 28036

Dear Ms. Bamford:

I am reaching out to you because of ongoing issues occurring at the Curtiss-Wright location in Summerville, SC. The total disregard for women and especially African American women at SAS Summerville is just disrespectful. Since I have been employed at SAS Summerville I have been subjected to wage discrimination, discrimination based on sex, favoritism, ageism, bullying, harassment and a hostile work environment. All of these claims were made known to the Human Resources liaison Stephanie Lanier. The latest incident I was met with verbal aggression from a Sr. Engineer and the incident was reported to Human Resources. The previous female NDT inspector, Megan Agler left because of the harassment and bullying which was also reported to Human Resources. There is a culture of abusive and aggressive behavior towards women at Curtiss-Wright that's not being addressed. In accordance with Curtiss-Wright Corporation Policy 1 & 4 there have been several violations of your own code of conduct. Below are only a few of the policies that are being violated on a regular basis at SAS Summerville.

Policy 1. Code of Conduct

IV. Our Relationship with Curtiss-Wright and Each Other

D. We Support Diversity, Inclusion and Opportunity

Curtiss-Wright is committed to an all-inclusive work culture embracing a variety of knowledge and ideas in recognition that the combination of diverse ideas is powerful. We believe and recognize that all people are unique and valuable, and should be respected for their individual abilities and contributions.

E. We Work in a Positive Environment

2. Curtiss-Wright prohibits all forms of harassment of employees by fellow employees, employees of outside contractors or visitors. This includes any demeaning, insulting, embarrassing or intimidating behavior directed at any employee because of his or her gender (including pregnancy, childbirth or related medical conditions), race, ethnicity, color, sexual orientation, physical or mental disability, age, ancestry, legally protected medical condition, family care

status, marital status, religion, veteran status, national origin or any other legally protected status.

4. Curtiss-Wright prohibits employees from engaging in any hostile physical contact, intimidation, threats of such actions or violence, or any other actions that may be considered threatening or hostile in nature while on Company premises, at a Company-sponsored function, while representing Curtiss-Wright or acting on its behalf.

POLICY NO. 4 POLICY AGAINST WORKPLACE VIOLENCE

“The Company is committed to preventing workplace violence and to maintaining a safe work environment.”

“The Company expects all employees to treat each other and our customers, vendors and others with whom we do business with courtesy and respect at all times.”

“The Company will not tolerate conduct that threatens, intimidates, or harasses another employee, a customer, or a member of the public at any time, including off-duty periods. This prohibition includes all acts of harassment, including harassment based on an individual's race, color, religion, gender/sex, national origin, ethnicity, citizenship status, genetic information, military status, age, and disability, or any other classification protected by applicable local, state, or federal laws.”

All issues and concerns have been shared with Stephanie Lanier in Human Resources. I have already filed an EEOC complaint for the aggressive behavior displayed by Brian Fogarty towards me and have already received my letter to pursue legal action. I have also reached out to a women's workplace organization to assist with media contacts. Women are not valued and openly disrespected because that's the climate at SAS Summerville.

Also black women contractors sit in contract positions for a long time before being converted to full time. There are instances where they aren't converted to full time employees but Curtiss-Wright will turn around and hire a white person male or female direct. These issues are currently going on right now. When I was hired I was hired as a contractor and spent 3 months as a contractor before I was hired direct. A month after I was hired direct a white male, Patrick Ingram was hired direct as the NDT lead inspector.

Since Patrick Ingram was hired there has been continuous favoritism displayed towards him. He was paid more than me and given a lead position when hired. I have twice as many years experience as Patrick and am also almost twice his age. When I questioned why Patrick was given a lead position and I wasn't made aware that there was a lead position posted I was given a bogus excuse. I was told that Patrick would be helping out in Final Inspection and NDT. Until I questioned this Patrick was working full time in NDT alongside me. After I filed a complaint with Human Resources my supervisor, Joe Cabaup had Patrick training in Final Inspection. He

was supposed to cover both departments. For months now Patrick is hardly ever in NDT and spends most of his days in Final Inspection. I was recently told that Patrick said he preferred to stay in Final Inspection and that he didn't want to be in NDT anymore. Patrick also stated that he didn't want to go to second shift and that he would quit if they made him. Joe Cabaup and Shane Sablotsky both tried to get me to train in Final Inspection so I could be moved to second shift. I told them that I was not going to be moved around to accommodate Patrick. Basically whatever Patrick wants management goes out of their way to accommodate him. I have faced wage discrimination and discrimination based on sex, race, and age. As well as favoritism towards Patrick.

I have attached documentation regarding all my claims. I even have communication between me and Megan Agler, former NDT Inspector regarding the bullying from Michelle Broman-Bolton. All claims that I mentioned can be verified with the welders and the Wash department.

If you would like to contact me, I can be reached at 843-813-1335 or email at denelson62@hotmail.com.

Sincerely,

Debra Nelson
Quality Control Inspector
