v.

CURTISS-WRIGHT ELECTRO
MECHANICAL CORPORATION d/b/a
Curtiss-Wright Steam and Air Solutions,
STEPHANIE LANIER, and SHANE
SABLOTSKY,

Defendants.

Case No. 2:25-cv-00405-DCN-MHC

**DEFENDANTS' RESPONSE TO PLAINTIFF'S
MOTION TO COMPEL**

Defendants Curtiss-Wright Electro-Mechanical Corp. d/b/a Curtiss-Wright Steam and Air Solutions ("Curtiss-Wright"), Stephanie Lanier, and Shane Sablotsky (collectively, "Defendants") by and through their undersigned counsel, submit this Response to Plaintiff's Motion to Compel (ECF No. 100) and her Motion to Compel Confirmation of Depositions (ECF No. 99).

Both Motions were premature when filed and must be denied.

On September 12, 2025, Plaintiff filed a Motion to Compel Defendants to respond to discovery requests, which, by her own admission, were not due until September 13.¹ Defendants responded to Plaintiff's discovery requests on September 12, 2025, the day before they were due. (**Exhibit A**, Defs' Discovery Responses). Upon serving their Responses, Defendants' counsel explained to Plaintiff that the responses were timely and asked her to withdraw this Motion.

¹ September 13 was a Saturday and so, technically, Defendants' responses were not due until Monday, September 15, 2025.

(**Exhibit B**, Correspondence with Ms. Nelson.) Counsel advised Plaintiff that if Defendants had to respond to her Motion, that they would seek the costs of having to do so from the Court. Plaintiff responded by saying, “I will not withdraw anything.” (*Id.*)

Because Defendants timely and fully responded to her first set of discovery, Plaintiff’s Motion to Compel should be denied. Further, because Plaintiff filed her Motion prior to the deadline to respond to her first set of discovery, and she refused to withdraw the Motion after Defendants timely served discovery, Defendants respectfully request that the Court order Plaintiff to pay their fees in having to respond to the instant Motion. To the extent Plaintiff seeks to compel Defendants to respond to her Second Requests for Production of documents, which she served on September 3, 2025, and which are not due until October 3, 2025, her Motion must be denied as premature.

Plaintiff also filed a “Motion to Compel Confirmation of Depositions” on September 12. (ECF No. 99.) In that Motion, she points to Defendants’ alleged failure to confirm the depositions and Defendants’ filing of a Motion to Dismiss her Fourth Amended Complaint as evidence that Defendants do not intend to produce witnesses for these depositions. This is not accurate. On September 1, Plaintiff emailed Defendants’ counsel to inquire about the current employment status of 9 individuals. Defendants requested that information from Curtiss Wright and provided Plaintiff with the requested information on September 12. In the meantime, on September 2, 2025, Plaintiff filed a “Notice of Deposition” with the Court (ECF No. 89), in which she indicated a desire to depose five witnesses plus a corporate representative “at a mutually agreed upon location, date, and time.” (ECF No. 89.) Thereafter, Ms. Nelson advised counsel for Defendants that she would like to do the depositions all at once on October 8 but was open to other days that week. The next day, Defendants’ counsel proposed to Plaintiff that we postpone depositions until such time as the

Court rules on Defendants' pending Motion to Dismiss because the claims in the case are not yet set. Plaintiff responded that she insisted on proceeding with the depositions to be finished by the Court's November 5 discovery deadline. Defendants' counsel advised Plaintiff that we were checking on witness availability the weeks of October 8 and October 15 and would be in touch. With respect to Plaintiff's request for a corporate representative deposition, Defendants' counsel explained to Plaintiff that she needed to provide a list of topics that she intended to cover so that Curtiss Wright could identify the most appropriate person(s) for the deposition. Plaintiff has not done so to date.

Defendants are committed to cooperating in good faith with Plaintiff's discovery efforts and scheduling the depositions at a *mutually* agreeable time and place. Defendants have not failed to confirm any depositions but have been working with Curtiss Wright to identify their availability and schedule depositions at a mutually agreed upon time and place, as Plaintiff originally requested. Defendants are working to confirm whether that date is October 8 or some later date(s) in October. Plaintiff cannot unilaterally select the deposition date and refuse to cooperate with Defendants in scheduling depositions at a mutually agreeable date and time. As such, Plaintiff's Motion to Compel Confirmation of Depositions should be denied or dismissed as moot.

The only deposition Defendants are not actively working to schedule is the corporate representative deposition because Plaintiff has yet to identify topics for the deposition as required by Fed. R. Civ. P. 30(b)(6).

Defendants request a status conference with the Court to discuss Plaintiff's outstanding discovery motions and any other outstanding discovery issues and to discuss options for preventing future unnecessary discovery motions.

Respectfully submitted this 17th day of September, 2025.

Ms. Nelson:

We just received notice of your filing of a motion to compel Defendants' discovery responses, which were not due until September 15, 2025. You noted in your motion that the responses were not due until September 13. However, under Federal Rule of Civil Procedure 6(a)(1), if a deadline to respond falls on a Saturday, Sunday, or legal holiday, then the deadline is extended to the next Monday (or day that is not a legal holiday). We were planning to respond to your discovery by the September 15 deadline, but we have gone ahead and served our responses a day early.

In light of that, your motion to compel was premature, and we respectfully ask that you contact the Court and withdraw your motion. If we are forced to file a response to the Motion, then we will seek appropriate relief from the Court, including requesting costs of having to respond to an unnecessary motion.

Thank you for your prompt attention to this matter.
